

# **True Repentance The Lost Path, The Biblical Way Matt 4:23-4:25**

## **Vs. 23-25**

**Jesus had a two fold ministry, kingdom preaching and healing. Why those two things? What does this say to us?**

God cares about our ultimately destiny but also our physical and temporal well being. He healed those who would not necessarily come to believe in Him. This is grace and grace for this current life.

**What do you think about miraculous physical healing in this age as “Christians,” “little Christs?”**

Miracles happen every day in hospitals.

**Why not in our every day life? Do we rely too much on the world and God’s wisdom to the skilled and educated to believe that ordinary people are gifted to pray and see healing?**

The answer to the second question is Yes. We have ordinances about laying on hands and anointing with oil all according to scripture and for healing, true healing. We should be quicker to do this.

**What are some signs of our lack of belief?**

We do doctors before the church, far an away, as the primary means of our healing. We truly rely on man most. We still give God praise for healing but, not skipping doctors by any means should not the church be primary?
